VOL. 20 No. 1

AUGUST 1988

Genetic aspects of feed intake and feed efficiency in dairy cattle: a review S. Korver (Wageningen, The Netherlands)	1
The effects of fasting and transportation on beef cattle. 1. Acid-base-electrolyte balance and infrared heat loss of beef cattle A.L. Schaefer, S.D.M. Jones, A.K.W. Tong and B.C. Vincent (Lacombe, Alberta, Canada)	15
The effects of fasting and transportation on beef cattle. 2. Body component changes, carcass composition and meat quality S.D.M. Jones, A.L. Schaefer, A.K.W. Tong and B.C. Vincent (Lacombe, Alberta, Canada)	25
Partition of whole body protein in different body fractions and some constants in body composition in pigs A. Susenbeth and K. Keitel (Stuttgart, F.R.G.)	37
Energy requirements and the feeding of mares during lactation: a review M. Doreau, W. Martin-Rosset and S. Boulot (Theix, France)	53
EAAP-News	69

VOL. 20 No. 2

OCTOBER 1988

Recording of production diseases in cattle and possibilities for genetic improvements: a review U. Emanuelson (Uppsala, Sweden)	89
Effect of sire of foetus on current and subsequent milk yield of the dam R. Saner and C. Gaillard (Berne, Switzerland)	107
Influence of transition feeding pattern on milk production at the turnout of cows to pasture J.B. Coulon, M. Petit (Theix, France) and P. D'Hour (Marcenat, France)	119
Effect of selection index versus mixed model methods of prediction of breeding value on response to selection in a simulated pig population D.A. Sorensen (Ørum Sdrl, Denmark)	135
Advantages of BLUP animal model for breeding value estimation in horses A. Tavernier (Jouy-en-Josas, France)	149
Investigation of a selection limit for litter size in mice R.C. Buis (Wageningen, The Netherlands)	161
Errata	173

VOL. 20 No. 3

NOVEMBER 1988

Crossbreeding effects between two Swedish dairy breeds for production traits K. Ericson, B. Danell and J. Rendel (Uppsala, Sweden)	175
---	-----

Estimation of genetic parameters for milk production in the first three lactations	
G. Teepker and H.H. Swalve (Göttingen, F.R.G.)	193
Factors affecting intervals between date of calving and incidence of health disorders in diseased dairy cows	
F. Düring and E. Ernst (Kiel, F.R.G.)	203
Milk temperature fluctuations during milking in cows with subclinical mastitis	
Z. Gil (Kraków, Poland)	223
Determination of ileal digestibility by shunt technique in the early-weaned pig: methodological aspects and utilisation of starch-rich diets	
J. Bengala Freire, J. Peiniau, Y. Lebreton and A. Aumaître (L'Hermitage, France)	233
Initial test of a farrowing crate with inward-sloping sides	
D. Fraser, P.A. Phillips and B.K. Thompson (Ottawa, Ont., Canada)	249
HCG-induced ovulation in two rabbit breeds: effect of dose, season and sexual behaviour	
F. Hulot, G. Cattiau (Castanet-Tolosan, France) and J.C. Mariana (Monnaie, France) ...	257

Short Communication

Comparison of early castration at Day 1, 7 or 14 on growth and carcass traits in swine	
M.A. Marks, J.W. Mabry, R.W. Seerley and G.W. Rampacek (Athens, GA, U.S.A.)	269

DECEMBER 1988

Multigenic control of specific and non-specific immunity in mice. A review	
D. Mouton and G. Biozzi (Paris, France) and O.A. Sant'Anna (Sao Paulo, Brazil)	277
Performance testing of bulls for efficiency and beefs traits in dairy and dual-purpose cattle. Report of an E.A.A.P. Working Group	
G. Averdunk (Grub, F.R.G.), S. Korver (Wageningen, The Netherlands) and B.B. Andersen (Ørum Sonderlyng, Denmark)	287
Selection on fat and protein to maximise profit in dairy herds	
J.B.M. Wilmink (Arnhem, The Netherlands)	299
A note on minimization of inbreeding in small-scale selection programmes	
M.A. Toro, B. Nieto and C. Salgado (Madrid, Spain)	317
Genotype \times environment interactions in pig breeding programmes. IV. Sire \times herd interaction in on-farm test results	
J.W.M. Merks (Zeist, The Netherlands)	325
